8.0.8.2

Dear Major Stoddart:

Our office has received your closure notification and closure plan as required by the above referenced permit. After careful review, we see no problems with the plans as submitted. In response to your suggested modification to clarify permit language regarding closure, we feel that this will not be necessary. We will note in our files that since your waste disposal system is located within a military facility, the premises will not be closed or abandoned.

As soon as the facility is completely shut down, we request that you notify us in writing. Our office will then schedule an inspection of the facility to verify the facility is shut down and that the closure plan has been carried out. Pending a satisfactory inspection, our office will then recommend to the Permit Board that your permit be revoked.

If you have any questions or comments, please call me at (601) 961-5171.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jerry C. Beasley".

FULL SCALE DEMONSTRATION SHUTDOWN NOTIFICATION - CEF-07-89

Ref: J. C. Beasley, Mississippi Department of Natural Resources, ltr to
Major T. L. Stoddart, USAF, Permit Closure, September 21, 1988

Dear Major Shelley:

This letter is to provide you with the final effluent discharge records required by the State of Mississippi Department of Natural Resources as applicable to the Water Pollution Control Permit No. PT90249. These records should be signed and transmitted along with the formal notification, as requested by the reference letter, that the facility has been shut down and the closure plan completed.

Please find attached a draft letter and a copy of the reference for your use and convenience.

Very truly yours,

A handwritten signature in cursive script, appearing to read "Carl Friedrich".

J. C. Beasley, Mississippi Department of Natural Resources,
letter to Major T. L. Stoddart, USAF
Subject Permit Closure, dated September 21, 1988

This correspondence is to serve as official notification that the
Incinerator Demonstration Project at the Naval Construction Battalion
Center is shut down and the permit closure plan has been completed.

The final effluent discharge papers are attached for your use.

Please contact me if I can be of service in your verification inspection
or any other matters regarding the project or the permit.

M. L. Shelley, Maj, USAF,
Environmental Restoration R&D
Air Force Project Officer
